

Edward & Sons Organic Turmeric Coconut Latte

is crafted in Sri Lanka from locally sourced organic turmeric, organic spices and organic vegan coconut milk powder. We've purposely included a small amount of organic black pepper for its natural piperine content, which enhances absorption of turmeric's beneficial curcumin. Stir this wonderful powdered mix into hot water or your favorite plant-based milk to enjoy a delicious and uplifting, golden **Turmeric Latte** in moments.

Directions: Add 2 Tbsp to 1 cup hot water or favorite milk beverage and stir until smooth.

Optional: For an extra rich and creamy cup, add Native Forest® Organic Coconut Milk to taste.

Suggestion: Steam or froth your favorite milk, then pour on top of your latte for a foamy indulgence.
