COCONUT MILK POWDER & PLANT-BASED COFFEE CREAMER

A staple of traditional Asian and Caribbean cuisines, coconut milk lends its rich and creamy goodness to many wonderful regional dishes. Now you can enjoy coconut milk in a convenient non-dairy powder that requires no refrigeration. It's an excellent choice for the home chef who values the convenience of powdered milk, but wants to avoid dairy and the additives that often accompany it.

To produce **Native Forest® Coconut Milk Powder**, we spray-dry fresh coconut milk, adding only select, plant-based ingredients to protect, disperse and balance nutrients as our rich liquid coconut milk becomes dry powder. Convenient and easy-to-use, Native Forest Coconut Milk Powder is great to take camping or traveling since it has no need of refrigeration. It dissolves quickly when stirred in hot water and will soon become your "go-to" ingredient for adding coconut goodness to beverages, soups, curries, sauces, desserts ...and more!

TO MAKE INSTANT COCONUT MILK

Mix 3 Tbsp Native Forest Coconut Milk Powder with 1 cup of hot water. Stir thoroughly.

Enjoy in all recipes calling for coconut milk.

Hint: Add more coconut milk powder if you prefer a "creamier" coconut milk.

TO ENJOY A NON-DAIRY CREAMER

Stir Native Forest Coconut Milk Powder directly into hot tea or coffee.

TO MAKE HOT CHOCOLATE

Add 1 Tbsp cocoa powder, 3 Tbsp Coconut Milk Powder and 1 tsp sugar into 1 cup hot water. Stir well and enjoy.
