

In a fertile Thailand valley surrounded by pristine highlands, lies a certified organic coconut farm. Here, dedicated farmers nourish the soil, care for the palms and pick the coconuts that become Native Forest® Organic Classic Coconut Milk.

We press the meat of these fresh organic coconuts adding only filtered water and a tiny amount of organic guar gum (from organic guar seeds) to make Native Forest Organic Classic Coconut Milk complete.

A staple of many Asian and Caribbean cuisines, our Classic Coconut Milk lends rich and creamy goodness to soups, curries, sauces, desserts, beverages and more!

See edwardandsonsrecipes.org for tasty recipes. Refrigerate after opening and enjoy within 4 days. Shake well. Coconut milk will separate when cold. For a smoother consistency, warm its container in a bowl of hot water and stir contents well.
