

To create Let's Do...Organic® Non-Dairy Heavy Coconut Cream, we press the meat of fresh organic coconuts and blend with a small amount of filtered water to achieve the premium taste of 30% coconut fat. It's truly a delicious indulgence - excellent in coffee, soups, sauces, desserts and more.

To make whipped coconut cream, refrigerate unopened can overnight. Scoop the solid coconut cream into a cold mixing bowl (save liquid for later). Whip the solid cream with a chilled beater until light and fluffy. Hint: For a lighter texture, add some of the liquid while whipping.

Serving suggestion: Add 2 Tbsp of powdered sugar while whipping. It's heavenly!

Without any guar or other additives, separation naturally occurs when cold. Place container in bowl of hot water.

Stir well to restore its smooth consistency. Refrigerate remaining contents in glass or plastic container - enjoy within 4 days.

Organic certification assures you of sustainable farming practices, which nourish soil and protect its biodiversity. Consistent with our company policy, organic certification prohibits the use of GMOs, artificial colors, and other unwelcome ingredients. The first to offer organic coconut milk in the USA, we are a family-owned, vegetarian company offering Convenience Without Compromise® since 1978.
