

The beautiful South American country of Ecuador boasts wonderful biodiversity, with thousands of species of plants and animals thriving in its lush tropical climate.

Land formerly used to raise cattle has been converted into certified organic farmland, where indigenous palms, known locally as *chontaduro*, are cultivated for their "hearts". These traditional vegetables, harvested from the inner buds of *chontaduro*, are enjoyed locally in fresh salads and featured in various Ecuadorian dishes.

We have cleverly crafted organic hearts of palm into low calorie, grain and gluten free pasta, perfectly in step with many popular diets. Packed only in water, organic palm pasta retains a naturally creamy color, resembling the grain-based pasta it typically replaces.

Simply heat our linguine with your favorite tomato sauce and serve with a sprinkle of parmesan. Or serve it warm with olive oil and garlic for "pasta aglio e olio".
