PRODUCT OF SRI LANKA

To create **Let's Do Organic® Evaporated Coconut Milk**, we press the meat of fresh organic coconuts, adding only filtered water to achieve this premium, plant-based option. It is then heated until much of its water content is evaporated. It's perfect as a creamer for coffee and tea. Evaporated milk gives creaminess to smoothies, adds nuance and richness to soups and chowders, savory sauces and baked goods.

**Original Sweetened Condensed Coconut Milk** is a delicious organic and vegan treat. Pour it over berries, ice cream or cake. Replace condensed dairy milk in Thai iced tea and key lime pie.  
Stir a spoonful into hot chocolate or coffee.

**Caramel Sweetened Condensed Coconut Milk** is a luscious organic and vegan treat. Pour it over ice cream or fresh fruit. Enhance your favorite baked goods. Stir a spoonful into hot chocolate for a mug of deliciousness.

To create **Let's Do Organic Heavy Coconut Cream**, we press the meat of fresh organic coconuts, adding only a small amount of filtered water to achieve this premium, plant-based indulgence. It's an excellent non-dairy coffee creamer and a delicious ingredient in soups, sauces, desserts and more!

Serving suggestion: To make whipped coconut cream, refrigerate unopened can overnight. Scoop the solid coconut cream into a cold mixing bowl (save liquid for later). Whip the solid cream with a chilled beater until light and fluffy. Hint: For a lighter texture, add-back some of the liquid while whipping.

**Organic Creamed Coconut** is perfect for Thai sauces and Caribbean stews. Diluted, pour over fresh fruit to make a delicious treat. Or, simply add Creamed Coconut into a blender with frozen fruit for tropical smoothies!
