

To create **Native Forest® Cashewmilk Powder** we press fresh, raw cashews to extract their creamy cashewmilk. Adding only plant-based inulin with its prebiotic benefits enables us to dry cashewmilk into this delicious and convenient powder. As a creamer, it dissolves beautifully when stirred into coffee or tea. Stir it thoroughly into hot water to make a wonderful beverage you can enjoy on its own or poured over cereal.

Native Forest Cashewmilk Powder is incredibly versatile! Blend it into your favorite smoothies or add it to curries, gravies, soups, sauces, salad dressings and sandwich spreads to enhance creamy goodness with a nutty nutritional boost! **Native Forest Cashewmilk Powder** does not require refrigeration (until it is blended with water), so it's the ideal travel companion.

Enjoy it at campsites, in hotel rooms, offices and more!

It's a member of the Edward & Sons' family of products, offering **Convenience Without Compromise®** since 1978.
