*The % Daily Value (DV) tells you how much a nutrient in a serving of food contributes to a daily diet. 2,000 calories a day is used for general nutritional advice.

To create Let's Do Organic® Evaporated Coconut Milk, we press the meat of fresh organic coconuts, adding only filtered water to achieve this premium, plant-based option. It is then heated until much of its water content is evaporated. It's perfect as a creamer for coffee and tea. Evaporated milk gives creaminess to smoothies, adds nuance and richness to soups and chowders, savory sauces and baked goods. It's often used in much the same way that half-and-half is - in custards, cakes, shakes and candies like fudge. Use any time a creamer is called for.

Ingredients:
Organic Coconut Milk
(Organic Coconut,
Filtered Water).
