Edward & Sons™ Organic Young Jackfruit is certified organic to USDA standards. While mature jackfruit is sweet and fragrant, young jackfruit is not sweet at all, because young fruit is picked before its starch changes into sugar. Local cooks prize its neutral taste and meaty texture, which assume the flavors of accompanying spices in popular regional dishes. Even so, the plentiful fruit exceeds local demand and remains on the tree. We purchase organic young jackfruit from this seasonal abundance, helping farmers earn important additional income from their crop.
